Hillsboro SpringHill Suites by Marriott Cleans Up the Environment

HILLSBORO, OR- November 12, 2007- The staff of the Portland/Hillsboro SpringHill Suites by Marriott® recently participated in a series of environmental activities as part of its efforts to reduce the hotel's environmental impact. The hotel is one of the eleven properties managed by InnSight Hotel Management Group that is focused on implementing environmentally conscious policies and procedures.

The week long series of events included a team of associates volunteering with Hillsboro Parks and Recreation to clean up a nearby city nature park and wildlife preserve. Several hours were spent picking up trash, spreading wood chips and moving tree stumps into the wetlands to be used as homes for native animals. A recycling contest resulted in the collection of 489 pounds of material during the week. Finally, each associate was given a canvas bag to use when shopping. Each bag contained a compact fluorescent light bulb to try out in their home and a reusable water bottle they can use at work and home instead of buying bottled water.

Other hotel environmental initiatives include the use of Green Seal certified, environmentally sensitive chemicals, a linen reuse program allowing guests to reuse their linens instead of having them washed daily, a recycling program, and the use of recycled products whenever possible.

The Portland/Hillsboro SpringHill Suites by Marriott® is a 106 suite property located at 7351 NE Butler Street. For more information, call 503-547-0202 or visit <http://marriott.com/pdxhl>.

SpringHill Suites Associates place tree stump in wetlands.
